## COUNCIL WILL HAVE A SPECIAL MEETING

CALLED TO SETTLE QUESTION OF  
WEST MAIN STREET.

Other Important Matters to Come Before the Body at This Called Meeting—Paving Question.

A special meeting of the City Council has been called for this afternoon at 2:30 o'clock, when West Main street in particular will be discussed and it is hoped the question settled.

The work on this particular thoroughfare was ordered some six months since, but nothing outside a few surveys and correspondence has ever been accomplished toward making this much-needed improvement. It was learned that the railroad people were willing and ready to progress with the work, but for some reason the matter hinged right there, and it was this that The Sun called attention to only a few days since.

Besides, there are other important matters to come before the meeting which are for the good of the town. Some of the people and property owners are alive to the needed improvements and want to see something along this line instead of placing mud adjoining the square, as has been the case.

It is understood that while the special meeting will take up several important measures their aim at this meeting is to settle the question of West Main street and the block that Messrs. Porter and Graham want paved with vitrified brick.

### Stock for Georgia Farm.

Manager Callison of Spring Park Farm was in the city yesterday. He came over for the purpose of superintending the loading of two fine Hereford bulls which he sold to the county commissioners of Chatham county, Ga. They will place them on the farm maintained by the county.

After a heavy meal, take a couple of Doan's Regulets, and give your stomach, liver and bowels the help they will need. Regulets bring easy, regular passages of the bowels.

Isn't there something which only a want ad. can do for you today?

### Baby Hands

Will get into mischief—often it means a burn or cut or scald. Apply Ballard's Snow Liniment just as soon as the accident happens, and the pain will be relieved, while the wound will heal quickly and nicely. A sure cure for sprains, rheumatism and all pains. Price 25c, 50c and \$1.00 a bottle. Sold by W. M. Johnson.

### Col. Porter in Town.

Col. T. V. Porter of Jacksonville was among the visitors to the city yesterday. At one time he was a large owner of Gainesville property, but has disposed of a larger part of his holdings here. This was his first visit in some time and his many friends were glad to meet him.

### Worn Out.

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50c and \$1.00 per bottle. Sold by W. M. Johnson.

Parties having job printing done at The Sun office are entitled to one vote in the Bush & Safford Piano Contest for each cent paid for such work. Don't forget this when in need of printed stationery. Read the advertisement giving particulars regarding the contest and vote for the lady of your choice.

# IMPORTANT TO ALL!

## Our Grand Early Exposition of Fine Ready-to-Wear Millinery, Shirtwaist and Walking Hats

As well as Special Showing of Fine Ready-to-Wear Goods of all the new Spring models, will occur

Wednesday, Thursday and Friday, February 24, 25, 26

YOU ARE CORDIALLY INVITED

THE G. W. HYDE COMPANY

### WILL HAVE BIG SHOW.

Manager Gardner Says He Purchased Extensively While Away.

Manager J. D. Gardner, of the Wilson store, returned Saturday from the markets, where he has been for the past two weeks purchasing their spring and summer line of dress goods and novelties for the ladies.

The ready-to-wear department will be found especially complete, as he has taken great pains to put in a supply that will meet the increasing demand in Gainesville. Neither pains nor expense have been spared to make this department all that the ladies desire.

Their store will be closed all of today, but they will be open for business on Wednesday morning, and desire to call the attention of the general public to the fact that this is not their big spring opening, which they will tell you of later, and which will excel all former efforts in this respect.

### Had Good Exhibit.

Maj. J. W. Tench, who has charge of the Alachua county exhibit at the Tampa State Fair, arrived in the city Sunday to spend a short while here with relatives who are visiting in the city. He has a very fine exhibit at the fair which was gotten up wholly by him and is confident that he will capture some of the prizes offered.

Whether from colds, heat, stomach or nervous troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c, 25c and 50c at all drug stores.

### Letter From Hon. Frank Clark.

Col. F. Bayer is in receipt of a private communication from Congressman Frank Clark which was written in Washington on last Thursday. In this letter the Congressman states that work will positively be commenced on the Federal building in this city not later than the 15th of March.

### Tuner and Fisherman.

Prof. Jules Eichelberger has returned from Micanopy, Evinston, McIntosh and other places, where he spent the past two weeks following his vocation as piano tuner. While near Tacoma he enjoyed a fine day's sport fishing and says that the party were very successful and fish are biting well.

### THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

## CHAUTAUQUA CONTINUES TO INTEREST

LARGE CROWDS AT EACH OF THE DAILY SESSIONS.

Dr. Howell Talks of Christ—Dr. Geisel Lectures on Home Treatment. Talk at High School.

(By Mrs. Elizabeth Smith.)

The Chautauqua commences the second week with a very fine program, and we are happy in the knowledge that it is to remain with us. The fact that we have a Chautauqua is one of the reasons why Gainesville is known as a moral town. Such things have their power in building character.

Dr. Howell gave his last talk at 9:30 a. m., and all who were present felt the uplift his words gave. He talked of Christ, the man—a Jew Christ, the mediator between God and man, belonging to all nations. He was tempted, and so can sympathize with His weak children, but He also resisted, and so can give us the strength to resist. He is "Love," and through love alone can man be saved.

The Bible reading will be continued under Dr. Lewther of Dwight, Ill.

10:30 a. m. was Dr. Geisel's hour for her lecture on "Home Treatment and Dyspepsia," with demonstrations. It was another of the many interesting and profitable talks of this grand woman. She calls coffee (that much-loved drink) a gay deceiver, and tells us there is not an ounce of nourishment in a whole carload, and I think she proves it very plainly. Of course coffee is only one of the things that goes to cause this most mournful disorder. For some simple common sense to go by she gave the following: Diet—fresh air; rational remedies for extreme cases—exercise, dress, and faith in the blessed Lord. Tuesday is her last lecture for this year.

At 3:30 o'clock all lovers of Dickens were treated to a masterpiece of impersonation by William Sterling Battle of Chicago. He took the book of "Nicholas Nickleby," and those who have read the book fairly see the characters alive before them. Even if one had never cared for Dickens' works these readings would have awakened the most lively interest.

8 p. m. was to have been a lecture by DeWitt Miller, but as he was unable to get here last night Mr. Battle most agreeably filled that time by another of his most interesting impersonations of Dickens, changes of costume being made in the presence of the audience. But his changes of expression from one character to another are still more wonderful.

The last of the illustrated songs and moving pictures were given last evening, and as ever were a source of pleasure to all. It has been one of the most attractive features of the Chautauqua, and all feel sorry to see them retire.

Dr. Geisel very kindly repeated her lecture on "Tuberculosis" at the High School auditorium before the entire school, and it was a great compliment to her ability to interest children and to see how closely they attended to her word. One little tot came home and told her father he must stop smoking or he would have tuberculosis. "And a little child shall lead them." And children remember what they hear.

### Today's Program.

Following is the program for today: 9:30 a. m.—Biblical hour, Dr. Lewther. 10:30 a. m.—Final session of the School of Health and Domestic Science. "Non-Alcoholic Medication. Why" (demonstration.) Cooking School: "Foods Needed for the Growth and Repair of the Body." Demonstration: "Roasts, Croquettes, Various Preparations of Beans, Peas and Nuts." Mrs. Emmons.

2:00 p. m.—First appearance of the famous whistler and reader, Miss Lena Walkbridge.

3:30 p. m.—Lecture: "The Strangers Within Our Gates," De Witt Miller. 5:00 p. m.—Whistling solos, Miss Lena Walkbridge.

8:15 p. m.—Entertainment Extraordinary: "Life Portrayals from Dickens." A dozen great characters impersonated in costume. Changes made in the presence of the audience. William Sterling Battle.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

## CURES CATARRH

J. W. McCollum & Co. Will Furnish The Medicine Free in Every Case Where They Fail To Cure Catarrh.

We have a medicine made from the prescription of one of the most successful catarrh specialists known. This medicine has a record of 98 per cent of cures, and we believe it is positively without an equal. We are so satisfied that we are right, that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time and fails to cure and give satisfaction in every particular. We want everyone in Gainesville to try this medicine at our risk. There are no conditions of formality attached to our offer. We put the user under no obligation to us whatever.

The medicine we want you to try is Rexall Mucu-Tone. It is a catarrh remedy that goes direct to the seat of trouble. It is carried by the blood to every part of the system. It seeks out and destroys the germs or parasites which cause catarrh. It purifies and enriches the blood, tones up the mucous cells, soothes and heals the tissues that were ravaged by the catarrhal parasite, and brings about a condition of health and strength that prevents the germs of consumption from ever getting a start. Besides this, Rexall Mucu-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are felt from the very first dose. It is one of the largest and most satisfactory selling medicines that we have ever had anything to do with. We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody.

Rexall Mucu-Tone comes in two sizes, 50c and \$1.00. We urge you to try it. J. W. McCollum & Co., corner East Main and Union streets.

## AMUSEMENTS

### COMING ATTRACTIONS.

#### New Baird Theatre.

Tuesday, February 23.—Gainesville Guards Minstrels, under direction of Chas. T. Fales.

Thursday, March 4.—Dandy Dixie Minstrels.

• • •

#### Electric Theatre.

The attendance last night at the Electric Theatre to see the combined exhibition of moving pictures and the illustrated lecture of Ross Crane consisted of a most appreciative audience and they were well repaid for their presence. There is but one Ross Crane and he is a whole company by himself.

Tonight and all through this week the moving pictures both in the afternoons and at night will be worthy of anyone's attendance. See them while you can, for it is seldom the same pictures are ever returned, it being the effort of the owners to keep them moving to different places, so they will not be repeated at any city.

#### Six Nights "Go as You Please" Race.

How many tired fathers and mothers in this town enter this race every night carrying a baby? And they wonder what the matter is. Chances are the child is starving—worms are eating all of its food. Most children have worms—yours needn't. White's Cream Vermifuge will get rid of the worms and strengthen the child. Price 25 cents per bottle. Sold by W. M. Johnson.

#### Making Improvements.

J. J. Haymans, who owns considerable property here and who has again removed his family to the city, spent Sunday and Monday here visiting them and looking after his extensive interests. He is now having considerable repairs and improvements made to some of his business property.

Let a want ad. negotiate a trade for you—of something you don't need for something you do.

### For City Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,  
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,  
CHAS. C. WARREN.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.  
CHAS. M. DELL.

### Northern Visitors.

M. C. McIntosh of Hawthorn was in the city yesterday. He states that there are more Northern people visiting that part of the county this season than in many years and that real estate has been more active there than for the same length of time.

## STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion Will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul-breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to J. W. McCollum & Co. this very day and get a large box of Mi-o-na tablets, and start themselves on the right road to health at once.

The price of Mi-o-na tablets is only 50 cents, and J. W. McCollum & Co. guarantee them to cure indigestion, or money back.

Thin or lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

## AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. EMMA LINSK, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

### A Very Indian Appeal.

The following appeal from India received by the lord mayor is printed in the City Press:

"May it please your lordship that I am very Indian, and I belong to the Brahman caste. Owing to my poverty and unhealthiness I cannot earn money by any profession. Including me, there are eight members in my large, poor and pitiable family—my paternal grandmother, my maternal grandmother, my mother, my aunt, myself, my wife, my first daughter, my second daughter. Moreover, I must perform marriage for my two daughters.

"So if I have at least £2,000 as a capital for my large, poor and pitiable family I can invest this amount in the safest bank and I can maintain my large, poor and pitiable family by the interest on this capital. So I must humbly request your lordship to regard me as your lordship's own son and send me at least £2,000 at your lordship's earliest convenience. I am in earnest. I am in earnest. I am in earnest."—London Standard.

### In a Strange Land.

Two belated disciples of Bacchus staggered arm in arm up Walnut street about 3 o'clock the other morning. The street was dark except for a single ground glass globe that blazed in front of an apartment house. One of the inebriates, spying this lone light, observed:

"Oh, look at the moonsh!"

The other seriously contradicted him, saying:

"That ain't no moonsh; zash sun."

This started an argument, which lasted for several minutes, as to whether the globe was the moon or the sun. Finally they decided to leave it to the first passerby, who happened to be another "happy" gentleman. They stopped him and, pointing to the globe, asked:

"Settle an argument, old pal. Is that the moon or the sun?"

The third party stared knowingly at the globe for several minutes before he shook his head and replied:

"Gentlemen, I really couldn't tell you. I'm a stranger in this town."—Philadelphia Record.

## S.S.S. FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which gradually gets into the circulation because of indigestion, constipation, weak kidney action, and other irregularities of the system which are sometimes considered of no importance. This uric acid causes an inflamed and irritated condition of the blood, and the circulation instead of nourishing the different portions of the body, continually deposits into the nerves, muscles, tissues and joints, the irritating, pain-producing acid with which it is filled. Rheumatism can only be cured by a thorough cleansing of the blood, and this is just what S. S. S. does. It goes down into the circulation, and by neutralizing the uric acid and driving it from the blood, effectually and surely removes the cause. S. S. S. strengthens and invigorates the blood so that instead of a weak, sour stream, causing pain and agony throughout the system, it becomes an invigorating, nourishing fluid, furnishing health and vigor to every part of the body and relieving the suffering caused by this disease. S. S. S. being a purely vegetable blood purifier, is the surest and safest cure for Rheumatism in any of its forms. Book on Rheumatism and any medical advice desired sent free to all who write.

LONG FEASTS.

Go Chinese Dinner and a Couple of Eskimo Banquets.

Mr. Ward, the American envoy to China, who tried to secure an interview with the emperor, Heng Fung, in 1904, tells how he was entertained at a dinner that lasted from noon one day to the evening of the next day.

The total number of dishes was not given, but Ward mentions that he had to give in after partaking of 125 different dishes, "whereupon his hosts wondered greatly"—presumably at his abstemiousness.

Probably, however, the Eskimo banquets last longer than any others and the quantity of food swallowed is also proportionately greater. Ross records that seven of his party of natives once ate continuously for thirty-three hours, during which time they consumed 200 pounds of seal meat.

Europeans exposed to the same climatic conditions do not in much the same way. Captain Scott of the Discovery on his return from his long sledge journey over the inland ice of the antarctic continent did nothing but eat and sleep for the space of three days and nights, and even then he was still hungry.

Commander Peary and his party, returning from their futile search for the pole in 1906, slaughtered a herd of seven musk oxen on Hazen island, off the extreme north of Greenland. For two days and nights thereafter they crouched inside their snow houses, eating continuously, and when they had finished the pile of bones outside was "as high as a tall man's chin."

It is worth more to someone else than to you—no matter what it is—a good ad. will be a good investment.

VINOL CURES CHRONIC COUGHS, COLDS AND BRONCHITIS

After Other Remedies Fail

"I have been troubled with a chronic cold and bronchitis for a long time and have tried many remedies without finding relief. Through the kind suggestion of a friend I tried Vinol, and after taking four bottles, am entirely cured." A. H. Wilde, 733-8th Avenue, Minneapolis, Minn.

S. McDonald, 147 W. Congress St. Paoli, Minn., writes: "I contracted a severe cold last winter and thought I would never get rid of it. I tried Vinol as a last resort, and it has completely cured me."

Vinol combines two world-famed tonics, the healing, medicinal properties of cod liver oil and tonic iron, deliciously palatable and agreeable to the weakest stomach. For this reason, Vinol is unexcelled as a strength-builder for old people, delicate children, weak and run-down persons, after sickness and for Chronic Coughs, Colds and Bronchitis.

VINOL is sold in Gainesville by W. M. Johnson, Druggist.

Not Particular.

Mme. Calve at a ladies' luncheon was condoned by an elderly spinster on the ground that a laudatory article about her had not been very subtle or discriminating.

"I know well," said the spinster, smiling behind her glittering spectacles, "that only discriminating praise counts as praise with you."

"Don't talk about discriminating praise," answered Mme. Calve. "Fulsome flattery is good enough for me."—Washington Star.

The Journey.

A little work, a little sweating, a few brief, flying years; a little joy, a little fretting, some smiles and then some tears; a little resting in the shadow, a struggle to the height, a futile search for Eldorado—and then we say good night. Some mulling in the strife and clangor; some years in doubt and debt; some words we spoke in foolish anger that we would fain forget; some cheery words we said unthinking that made a sad heart light; the banquet, with its feast and drinking—and then we say good night. Some questioning of creeds and theories and judgment of the dead, while God, who never sleeps or wearies, is watching overhead; some little laughing and some sighing; some sorrow, some delight; a little music for the dying—and then we say good night.—Walt Mason in Emporia Gazette.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

Syringe Baring Firemen.

A studious fireman looked up from his book.

"In place of all these here electric engines, automatic chutes and so on," he said, "the only instrument they had to fight fire with in the seventeenth century was the syringe. Under the roof of every building that they thought worth saving—like cathedrals and such—there were big tanks to catch the rainwater, and beside each tank hung a syringe a yard long. Then when a fire came—squirt, squirt, they went with their syringes, and the building quickly burned down to the ground."—New Orleans Times-Democrat.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so? The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

THE TREATMENT OF MUCK SOILS...

By A. W. BLAIR

Florida Agricultural Experiment Station

Muck soils are formed by the decay, in low wet places, of grasses, weeds, vines, leaves, and even trees. Being so largely formed from vegetable matter, they are much richer in nitrogen than ordinary soils. They usually also contain small amounts of phosphorus and potassium. No systematic survey of the muck soils of Florida has yet been made, but such evidence as has been accumulated tends to show that they are generally very acid or sour.

Drainage.

If muck soils are to be cultivated it is obvious that they must first be drained. This is necessary in order that they may become the home of the various kinds of micro-organisms that play an important part in the making of a fertile soil. These micro-organisms need moisture, but they cannot develop in mud or standing water.

Cultivation.

Cultivation should be deep, especially at first, in order that the air may thoroughly penetrate the soil. Muck soils often contain substances that are noxious and even poisonous to plants. When these poisonous substances are exposed to the air, they are probably oxidized to a considerable extent, and thus destroyed. A free circulation of the air also improves the conditions for the development of the useful micro-organisms.

Correcting Acidity.

Suitable materials for this purpose are finely ground limestone, air-slaked lime, wood ashes, and marl. A fuller discussion of this subject is found in Bulletin 93.

It will be necessary in most places to use larger quantities on muck soils than on upland soils. If limestone is used, two to six tons per acre should be applied. If lime is taken, a ton and a half or two tons may be used. The material should be thoroughly worked into the soil one or two months before the crop is planted. This will give time for the lime to neutralize the acid.

The importance of destroying the acids can be better appreciated, when we remember that the micro-organisms that convert organic nitrogen into a form that can be used by plants cannot develop in a highly acid soil. The limestone and lime also furnish a suitable base with which the nitric acid that is formed may unite, thus producing calcium nitrate which can be taken up by plants.

If muck is to be used on upland soils, it is also necessary for the acids to be destroyed. This can be done either by composting it with one of the materials already mentioned, or by applying the latter when the muck is applied, or afterwards, and thoroughly mixing both with the soil by cultivation. Muck may be improved by simply drying and thoroughly airing it. This is especially true of mucks that contain iron compounds. We cannot expect a satisfactory yield of such crops as celery and lettuce on muck land until the acids have been largely destroyed.

It occasionally happens that a muck deposit is underlaid with marl, or is in close proximity to a limestone formation. In such cases it is not so likely to be acid, and might not require the treatment with lime.

Fertilizers.

Muck soils being especially rich in nitrogen should, one would think, require but little, if any, of the nitrogenous fertilizers. Experience, however, shows that in many cases they do require added nitrogen. This is because they are so strongly impregnated with acids that the bacteria which would otherwise convert the inert nitrogen of the organic matter into soluble form, cannot live. When this unfavorable condition has been corrected, less nitrogen in the form of commercial fertilizer will be required. If a quick-growing vegetable crop is being produced, nitrate of soda may be used to good advantage, as may also stable manure since it introduces beneficial bacteria; but sulphate of ammonia, and organic forms of nitrogen (such as ground meal and castor pomace) should not be used; the former because it will aggravate the acid condition, and the latter because there is already enough organic nitrogen present. Phosphoric acid and potash may be used if desired. For phosphoric acid, ground bone is an excellent material; while a ton or two of finely ground phosphate rock (floats) would also be helpful; not so much, however, for immediate results, as for future crops, since the acids in the muck will very gradually convert the insoluble phosphoric acid into the available form. For potash, any of the potash salts will suit. Kainit has been used on the muck soils of Illinois, with good results. Hardwood ashes are an excellent source of potash, if they can be obtained on the place or bought at a reasonable price.
